

Viteria Fusani is a leader in the development and production of standard and special metal screws, ranging from small to medium sizes, used in various sectors such as the electromechanical, pneumatic, industrial automation, and automotive industries.

Viteria Fusani aims to position itself as an entity of excellence and Top Management is committed to providing resources (Personnel, Infrastructure, Machinery, Management Systems) to:

- Fulfill the applicable mandatory requirements related to Viteria Fusani's activities
- Safeguard health & safety in the workplace by eliminating hazards and reducing risks
- Meet the needs and expectations of interested parties, with priority given to the Customer
- Operate sustainably while respecting the environment, reducing environmental impact, saving energy, and decreasing CO₂ emissions
- Protect data and information in the interest of all stakeholders
- Ensure Customer supply continuity
- Pursue continuous improvement in every area of business management and customer satisfaction

This policy serves as the framework for defining both strategic objectives and those related to each business process, with a focus on customer orientation, sustainable improvement, energy efficiency, and workers' health and safety. A clear definition of objectives, thorough and careful data analysis, and fact-based decision-making characterize Viteria Fusani's management approach.

The Management System Policy takes into account the context in which Viteria Fusani operates and the systematic review of risks related to business processes. The Policy is reviewed in the event of significant changes at global level, and in any case, at least once a year during the Management Review.

This policy, as a public document, is released to the organization and made available to interested parties upon request.

Viteria Fusani is committed to maintaining a Management System compliant with the following International Standards:

ISO 9001

IATF 16949

ISO 14001
